TRUMP: If a Democrat Presidential Candidate had an Election Rigged & Stolen, with proof of such acts at a level never seen before, the Democrat Senators would consider it an act of war, and fight to the death. Mitch & the Republicans do NOTHING, just want to let it pass. NO FIGHT! (twitter.com)

310 Follow up tweets;

“ The “Justice” Department and the FBI have done nothing about the 2020 Presidential Election Voter Fraud, the biggest SCAM in our nation’s history, despite overwhelming evidence. They should be ashamed. History will remember. Never give up. See everyone in D.C. on January 6th.

“ Where the hell is the Durham Report? They spied on my campaign, colluded with Russia (and others), and got caught. Read the Horowitz Reports about Comey & McCabe. Even the Fake News @nytimes said “bad”. They tried it all, and failed, so now they are trying to steal the election!

“ The U.S. Supreme Court has been totally incompetent and weak on the massive Election Fraud that took place in the 2020 Presidential Election. We have absolute PROOF, but they don’t want to see it - No “standing”, they say. If we have corrupt elections, we have no country!

“ A young military man working in Afghanistan told me that elections in Afghanistan are far more secure and much better run than the USA’s 2020 Election. Ours, with its millions and millions of corrupt Mail-In Ballots, was the election of a third world country. Fake President!

There's more than evidence, there is overwhelming proof. Watch bill coopers mystery Babylon series. After that watch some robert sephyr, (AtlanteanGardens on YouTube) to see his information corroborated.

Btw I didn't look at his link. He's right though big picture, if a little confused. They think baal/lucifer is the good guy.

Personally, I'm highly skeptical of the Enemy being a bundle of every major ancient and modern conspiracy and/or empire that's ever been even tangentially associated with Satanism by a lot of older theologians, from Babylon's monarchs to the Vatican & Jesuits to the Kabbalah. Just seems too convenient and several of the links so tenuous as to be nonsensical (ex. why on earth does monotheism bind the Romans, who were polytheistic for most of their history, to the Khazars who didn't even exist until centuries after Rome fell?).

However, I will say that the Pizzagate revelations (as lovingly recorded in charts here, on 4chan, and Mouthy Buddha's fantastic Pedogate videos on Bitchute) seem pretty compelling evidence - at least to me - of there being something seriously wrong with the elites Trump's fighting, and not just on an ideological level but on a genuinely spiritual/moral one.

One important thing to remember is that they believe, to them it is real regardless of our views on theology.

I used to ignore certain 'conspiracies' that were rooted in religion, then I realized it doesn't matter how far fetched it sounded to me, if it is real to them then it might as well be real.

The Progressives realized they couldn't rule the world all by themselves. So the Neocon pseudo conservatives came to be in 1920. Outside of Coolidge, Einsenhower, and Trump the Republican party has been largely comprimised since the end of world war 1.

WW1 was an all out Deep State Federal Reserve Neocon/Marxist Creation.

The FED had to be combined together with the war to legitimize income tax and other types of thievery (inflation).

Also to implement more holy see(sea) corporate slavery (think PassPorts (as in vessels having pass to go though the port inside the holy see jurisdiction (legalism))).

Opponents of the FED creation died on Titanic. They would have stopped it, but got stopped themselves instead. The swamp has always been deeper than what people actually thing.

ACT OF 1871 and the corporate fake Constitution should be common knowledge.

▼ On page 950 of carroll quigleys book "tragedy and hope," he writes that there is an anglophile group trying to take over the world, and will work with anyone, communists included, to achieve that goal. His book was made in the 60s, and bill clinton the rapist recommended it. The reason why he knows about them is because quigley supported them, he knew about them for 20 years and looked thru their records for 2. And he laid out ALOT of stuff in that book.

It doesn't help that our legal team puts us into shitty situations by claiming they have proof and never actually showing it. People keep bringing "proof" to me but it's not proof. It's compelling evidence. There's a huge difference. We need to stop over hyping shit that we don't have. At some point if you are losing just about every single legal argument, do the goddamned math and wake up.

I don't know why the President can't seem to find one competent person to work with him. Almost every hire or appointment he makes is a complete fucking disaster. Isn't because they are all deep state. Maybe if he would stop alienating people on purpose on Twitter we could assemble a legal team worth a damn.

We can't brag about his "spicy tweets" and how he's unafraid of triggering absolutely everybody and brag about that for four years and then throw our arms up in shock and surprise when no one wants to work with him. When no judges want to side with him. When no moderate Republicans want to stand behind him. We can't have it both ways.

▼ Indeed there are many layers. Mainly I'm omitting the Baal part. Evil is evil. Tiers don't matter to me with that.

My take aways: Ritual occultism used to control the minds. Media tells us everything is great. Put a smile/mask on for the world to reinforce it. Buy things to fill your heart/soul, but they never (✓) things you chase to own...own you. Work your corporate job and use yourself up as a cog in the wheel of corruption.

gets sucked out of you to be replaced with an appeal to authority via the teachers to make a good corporate slave later.

Animal experimentation for fashion/makeup industry to reinforce the happy mask imagery. Food modification to make us sick. Once sick, they have the cure with pills and shots that further make us sick or dumbed down. Trust the authority in doctors as they know what's best even though truth is suppressed. Stealing money from the everyday person at every turn possible. Politicians are 2 faced and doesn't matter if it is Red or Blue as the mind is controlled/puppet. Etc...There's A LOT of layers.

The takeaway for me is to break free of the control in various means. Social media, corporations, media, drugs, material things. The imagery of transformation is the DMT our bodies naturally produce in the Pineal and Lungs. Shedding the material for the immaterial. A phoenix reborn and AWAKENED. WE ARE NOT SLAVES!

2 ▼ Yeah, I've been mostly an independent, switching only when there's an important primary, and have been weighing whether to become more involved in local politics, or whether to let go of the party altogether. I disagree about Trump being close to old school liberals or Democrats, though.

In the last several decades, there has really never before been a major leader nor a major movement in the US that has been nationalist. Trump is not at all like the Democrats of decades ago, who signed NAFTA, pushed for the Free Trade Area of the Americas, guarded China as a preferred trading partner, starved Iraqi civilians with sanctions and started the Iraq bombings that opened up the invasions of the Bush administration, were involved in invasions and dirty dealing in the Balkans, were heavily involved in CIA operations, etc, etc.

Non-interventionism and putting America first is a game changer. That's why he's opposed so strongly by the elites of both parties, globalist think tanks, and the intel agencies. Everything he stands for is cutting off their business, influence, trafficking, war profiteering. The Dems of a few decades ago would never even have thought to do such a thing.

18 What infuriates me more is the Republicans bitching about double standards and how the Democrats get away with everything and victimise them yet they then do the same to Trump or anyone in the party who thinks independently

Dems camp outside their houses and harass them in restaurants but the same Republicans pussy out and do nothing to help fix these standards when they hold power.

No, the "signal" has *not* been received. "I will no longer stand by" could mean many things (ideally, it would mean the Insurrection Act, Martial Law and calling up the militia). But we shouldn't have to be constantly reading the tea leaves to figure out what the President has in mind.

Having a yellow press unilaterally lie for you; a government that covers up your crimes; and stirring up idiot rage because some people truly believe they are fighting racism— none of that shit makes you a “winner.” It means you are a pawn being used to ensnare yourself, along with the rest of us, into full global enslavement. You know what that means? There's no backing out when you're proven wrong. There's no safe haven—no sovereign land to hop the border into and live free. You are being played. Bigly.

▼ Well then he better call in the military. Insurrection act. I mean that's what we are left with. These are our only options now. If I were him I sure as fuck wouldn't rely on his voter base of people who keep talking and talking and talking about guns and do absolutely nothing with them while Antifa and BLM burn down towns and cities.

I mean it's too damn late now to clean out the corruption in the FBI and CIA and DOJ, which I have absolutely no goddamn motherfucking clue as to why he didn't do that in the four years he was in office. Astoundingly curious.

So it's a little late now to brag about how courageous he is. He's running out of time to actually, finally, do something about these motherfuckers. If he doesn't he's going to lose nearly everyone here. Every time that's mentioned there is a ton of silent agreement. It's real, the lack of patience is real. He has about two weeks to act before even many of his own followers will give up on him. That's real.

4 Then why didn't he turn the FBI, CIA and DOJ upside down?

▼ That's a real question, maybe there is an answer, and I'm struggling to find it. Maybe you can provide one.

Aside from the excuse of "everybody is against him" what is the reason why no one was punished for spying on his campaign? Why is Soros still alive instead of his brain case being ventilated? Why are spies and traitors and commies COMPLETELY UNDISTURBED in his four years?

Why is Fauci still lying to people on national television in his official capacity? Why did he, with four years of warning, fail to protect the election? I mean we didn't even send security in to monitor the process. Every time someone gives me an excuse it has something to do with "how it would look" and I thought Lions didn't consider the thoughts of sheep.

He didn't stop the riots. He didn't stop the looting. On his watch we have children wearing masks and sitting behind plastic barriers in public schools.

I know it's cool to think he's an awesome, tough, take no nonsense renegade... But where are the results? Again, I get it, it's hard. Everyone is against him. But results matter. Our situation is worse than it was four years ago. Worse. By a lot.

President Trump has plenty options and he will use them if it comes down to it.

President Trump starts his second term in Jan 2021 ONE WAY OR ANOTHER

President Trump isn't going anywhere because there is a Branch of government who knows China owns Biden and the rest and that the election was stolen. this branch of government will not allow any transfer like that to take place. So this may get messy but if it has do then oh well.

▼ The thing is, one does not simply go to war without strategy, without a plan worked out, which needs time. Trump has been declared war by globalist elite motherfuckers. This is a power struggle, power struggles are vicious and nasty and dangerous. Give some compassion towards Trump, what are you risking? You are passionate about the country and truth and justice yes, we are all in this together, but remember that Trump is the one in front, risking EVERYTHING. He has to literally make a war or peace decision, either he will go to war with the corrupt globalist faction rotting the system from within or back down. If he goes to war, then the whole situation will go HOT. This isn't something someone just decides on a whim. I think he will fight and hopefully win. So far, a lot of bullshit has been uncovered and discussed back and forth, but to act on the knowledge and fix a rotten corrupt system, that is WAR. We'll know in the next two weeks if Trump fights this war or not.

8 We need an immediate solution - primaries take good candidates and years in time!

2 I'm praying military may not have to be used.

I'm praying that it *will* be. And yes, I understand the possible implications. But if the choice is between *possible* problems down the line or the *certainty* of surrendering our country altogether right now, the choice seems very clear.

1 I know I and I'm sure many patriots here would run under the American Lion party with only 1 directive going to DC... Slay the traitors, expose them and their business.

Problem with any new candidates or party, we have to get control of our states and local governments. They control the voting apparatus and are complicit in both the voting fraud and the Rona. After DC, we have to get busy with our states with the same passion we have for DJT.

▼ And this is why I no longer consider myself a Republican, but rather a patriot. From now on I will only vote for people I consider American patriots.
Fuck off, Grand ol Pussies.

▼ So they've stolen the election from Republicans before. Kennedy stole it from Nixon.
They count on Republicans being too good-natured and pro America to rip the country apart over it.
The modern Democrats know that Republicans are not unified and exploited that weakness.
So the two things that we consider to be virtues have been turned against us:
1. Love of America
2. Independence of opinion (loose confederation of conservatives loses to tight unit Libs)
So start thinking about the other virtues of your character that you think are admirable. Start thinking about how the enemy is going to turn those against you

-5 realistically, what will make the 6th different from other days? You expect all of sudden a big thing to happen out of nowhere? A big march will determine the presidency? if a march does, Hillary would be president for the last four years.
